## About Me

I am a Full Stack Web Developer, with experience doing Full Stack projects developed in the PERN stack with React, Redux, PostgreSQL, Express, Node js, HTML, CSS, Express, JavaScript and Sequelize. One of the projects was done as a team using SCRUM with one week sprints.

I have previous experience for more than 10 years as a Dentist, with experience in university teaching, and commercial management. This allowed me to develop skills such as leadership, ability to work in collaborative environments, creativity, expansion of my knowledge and desire for continuous learning.

I am a person with excellent academic background, resilient, which makes me very committed and passionate about what I do, with analytical and creative thinking, actively seeking results and problem solving and excellent teamwork, empathy, curiosity and dedication to what I do.
